

Dear Grandma and Grandpa:

I know you love me so please consider having a hand in my future by joining the PTA at my school. Do you know anything about the PTA? Here is some stuff you might be interested in—PTA is all about us kids—our education, our health, our activities, our schools—and what grown-ups can do to help us all have a brighter tomorrow.

By joining our PTA, you can help be a link in good home-school relationships, help kids like me have a great education, and be part of making the future better for every kid. You might even get a chance to come and read to our class, or go on a field trip, or . . .well, I think you see how it works!

Please help us grow up and make it a better world!

Love,
